## We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

### IDENTIFYING INFORMATION

Name of Organization: GE Energy  
Principal Contact: Laura Miller  
Authorizing Official: Mark Campbell  
Address: 231 Lake Drive  
Phone/Fax: (302) 451-2662 / (302) 451-7501  
EPA RCRA ID Number: DER000001958

Facility Name: GE Energy  
Title: EHS Technician  
Title: EHS Manager  
City/State/Zip: Newark, DE 19702  
Email: laura1.miller@ge.com  
Date: October 02, 2007

### PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Lead **CASRN:** 7439-92-1

**Narrative description of proposed project:** GE Energy's goal is to reduce the amount of lead that is disposed of as a hazardous waste by implementing a recycling program to separate our scrap lead tabbing and interconnect from the current hazardous waste stream and recovering the lead from this material.

**How we will measure success:** We will create new collection containers to separate the scrap lead tabbing and interconnect from the current hazardous waste stream. This will allow us to generate a new waste profile with our recycling vendor, enabling them to generate a report identifying the amount of lead that is recovered from the scrap tabbing and interconnect.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to a reduced amount of \_\_\_\_\_ pounds generated/used by \_\_\_\_\_ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |   |  |
|---|--|
| <input type="checkbox"/> Equipment or technology modifications. | <input type="checkbox"/> Process or procedure modifications.                 |
| <input type="checkbox"/> Reformulation or redesign of products. | <input type="checkbox"/> Substitution of less toxic raw materials.           |
| <input type="checkbox"/> Improvements in inventory control.     | <input type="checkbox"/> Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> Other (describe): _____                |  |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of 0 pounds in July, 2007 (month/year) to an increased quantity of 85 pounds by August, 2008 (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- |   |
|---|
| <input type="checkbox"/> Direct use/reuse in a process to make a product.                           |
| <input checked="" type="checkbox"/> Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> Using/reusing waste as a substitute for a commercial product.              |
| <input type="checkbox"/> Other (describe): _____  |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). ☒ Yes ☐ No
